10	Student feedback mechanism on Institutional Governance/faculty performance	A regular feedback is taken from all students , while advising them ‘not to disclose their identity’ , for a fair assessment of any weak points in the system and weak and strong points of each individual teacher, with the end-mission to upgrade and improve the knowledge-transfer process/ methodology of each faculty, as far as possible. Director himself also takes students into his confidence from each and every group class and strata and secures appraisal of the performance of each and every faculty member. Based on this feed back and appraisal, Director counsels each individual faculty member, regarding his/her weak points / short-comings in order to make him/her overcome their short-comings and become more efficient and effective teacher for the subsequent semesters .
11	Grievance redressal mechanism for faculty, staff and students	<p>Students: A regular forum in the form of advisory period of one hour / week has been allocated to the students along with a teacher advisor who will remain with the same group of students for all the 04 years of their stay in the College. Students discuss and tell their grievances/ problems, if any, to the advisors who will in turn either counsel them as how to overcome their difficulties/ or, meets the concerned authorities to redress their problems. A suggestion-box has also been affixed near the students area to facilitate the students to express their views about the working of the system and its performance, without fear, and with full freedom.</p> <p>Staff: Director holds regular meetings with the staff where he aims to know if there is any general difficulty / problem faced by the staff and to redress the same at the appropriate level. The system is otherwise very liberal, and any staff / student who so ever has any difficulty, can freely approach the Administration, and if found genuine, his grievance is immediately got redressed form the management.</p>
