KC COLLEGE OF ENGINEERING & IT

K.C. College of Engineering & IT, Nawanshahr, established in the year 2004, is an ISO 9001:2008 certified by BVQi. It offers undergraduate courses in Mechanical Engineering, Electrical Engineering, Information Technology, Computer Science Engineering, Electronics & Communication Engineering, Civil Engineering, and a Masters Degree course in Management of Business Administration (MBA). All the courses are approved by AICTE, New Delhi, and the college is affiliated to Punjab Technical University (PTU), Jalandhar.

ABOUT ETEM-2014

The National Conference on Emerging Trends in Engineering & Management (ETEM-2014) will provide a forum for researchers from academia and industries, giving them an excellent opportunity to explore the role of smart technologies in the area of Engineering and Management. The purpose of the conference is to present and discuss recent technological knowledge and share information in the relevant areas that could lead to future developments. The conference will provide an opportunity to present and observe the latest research ideas, developments and applications in the area of Engineering and Management. It will also provide opportunities to students to meet experienced peers.

ETEM-2014 GOALS

The major focus of the conference is to share innovative ideas and research outcomes so that the participants leave with enhanced technical knowledge and a desire to organize and participate in future conferences. It also plans a broad range of high quality presentations to serve as an excellent learning opportunity.

ETEM-2014 SCOPE

The Conference is focused on the presentation and discussion of research papers in the different areas and related fields. Papers are invited from academia, technocrats, researchers and students on the following topics-

Mechanical & Production Engineering:

Heat & Mass Transfer, IC Engine & Combustion, Alternate Fuels, Advance Refrigeration & Air-conditioning, Turbo Machines, Fluid Power Engg, , Computer Aided Engg (CAD, CAM, CAE), Computational Fluid Dynamics (CFD), Advanced Manufacturing, Non-conventional Energy, Product &Process Development, Computational Methods in Mechanical & Production Engg, Automotive Design and testing, Advancement in Material Science, Production Management, Non-Conventional Machining.

Electrical Engineering:

Power System, Renewable Energy, Power Electronics, Advances in Power generation technology, Smart Grid Protection system.

Electronics & Communication Engineering:

Signal & Image Processing, Communication, Embedded Systems & VLSI, Robotics & Automation, Drives Wireless and mobile communication, Security and privacy issue in communication. Optical Networks and Sensors. Sub –Carrier Multiplexing and Radio over Fiber, Microwave Communication System, Smart Antennas, Microcontroller/Embedded System Design, Speech and Image Processing, DSP System Implementation

Computer Engineering & Information Technology:

Mobile Computing, Artificial Intelligence, Digital Image Processing, Internet Computing: Protocol and Securities, Neural Networks and Fuzzy Logic Application in Electronics, Intelligent Hybrid Systems, Nanotechnology, Wireless Sensor Networks, Network Security, Software Engineering, Artificial Intelligence, Multimedia application, E governance, Cloud Computing, Adhoc Networks, Data Mining, Digital Image Processing, Analysis of Power Quality and system stability, Advances In Power Generation Technology.

Management :

Marketing management in high growth industries, Marketing Research, Supply chain Management, Emerging Trends in Management, Change in Organization, Organization Flexibility, Emerging Trends in financial Section, Entrepreneurship management, International marketing, HRM

Applied Sciences:
